

1 - POLISHED ALUMINIUM BASE

For cleaning

Use soft cloth and glass cleaner. To polish, apply aluminium polishing paste wax following the instructions on the label.

For disinfection

The use of ethanol is recommended, while the use of sodium hypochlorite, hydrogen peroxide and benzalkonium chloride is not recommended. *

2 - PAINTED ALUMINIUM BASE

For cleaning

Use soft cloth and non-abrasive neutral detergent. Do not use alcohol, solvent-based, acid or abrasive cleaners

For disinfection

The use of sodium hypochlorite (0.1% - 0.5% sol.) is recommended, while the use of hydrogen peroxide is not recommended. Denatured alcohol and ethanol may generate some slight aesthetic changes. *

3 - PLASTIC COVER (PP)

For cleaning

Use soft cloth and non-abrasive neutral detergent. Do not use alcohol, solvent-based, acid or abrasive cleaners

For disinfection

Denatured alcohol, sodium hypochlorite (0.1% - 0.5% sol.), ethanol (70% sol.), hydrogen peroxide (0.5% sol.) and benzalkonium chloride can be used.*
