

### POLISHED ALUMINIUM COMPONENTS

#### For cleaning

Use soft cloth and glass cleaner. To polish, apply aluminium polishing paste wax following the instructions on the label.

#### For disinfection

The use of ethanol is recommended, while the use of sodium hypochlorite, hydrogen peroxide and benzalkonium chloride is not recommended. \*

### PAINTED ALUMINIUM COMPONENTS

#### For cleaning

Use soft cloth and non-abrasive neutral detergent. Do not use alcohol, solvent-based, acid or abrasive cleaners

#### For disinfection

The use of sodium hypochlorite (0.1% - 0.5% sol.) is recommended, while the use of hydrogen peroxide is not recommended. Denatured alcohol and ethanol may generate some slight aesthetic changes. \*

### POLYPROPYLENE PLASTIC COMPONENTS

#### For cleaning

Use soft cloth and non-abrasive neutral detergent. Do not use alcohol, solvent-based, acid or abrasive cleaners

#### For disinfection

Denatured alcohol, sodium hypochlorite (0.1% - 0.5% sol.), ethanol (70% sol.), hydrogen peroxide (0.5% sol.) and benzalkonium chloride can be used.\*

#### PRODUCT NAME

**Instar**

#### TYPE

**Fixed support**

—

**Tilt mechanism**

—

**Tilt mechanism with lock**

#### MATERIALS

**Polished aluminium**

—

**Painted aluminium**

—

**Polypropylene plastic**

**Before disinfecting the entire surface of any component, it is advisable to proceed with tests on a small part of the product.**

\* Analysis of the effects resulting from the application of chemicals on product surfaces, performed by an accredited laboratory.
